The barkentine Omega came in Thursday evening.

The German ship Naxiede was towed up the river yesterday.

The steam schooner Burnswick came down from Portland yesterday.

The Lenox came down the river yesterday and proceeded down to Flavel.

The ship Benecia has shifted to the A. & C. dock and is discharging cement.

The steamer "Portland" from San Francisco came in yesterday and proceeded up the river.

The Fullwood, British ship, arrived down from Portland and will lighter 200 tons of grain at this port before proceeding out.

Another cargo of breadstuff for the fighting British or "their friends the enemy" was shipped from Portland yesterday, says the Oregonian. Kerr, Gifford & Co. clearing the British ship Blythwood for Alga bay, South Africa, with 56,635 bushels of wheat, valued at \$50,000. This is the sixth cargo from Portland to South Africa since the opening of the season July 1. There are several other vessels well on toward the finishing point, and several are now in the stream ready to leave down. The British ship Kate Thomas, which made such a fast passage up from Panama, has cleared for Queens-town or Falmouth for orders with 91,223 bushels of wheat, valued at \$55,000.

She was dispatched by Balfour Guthrie & Co., and the same firm has just finished loading the Niobe. The latter vessel has been held up for a few days on account of injuries sustained by Charles Gallagher on board the vessel. She was libeled by Gallagher, and the case was not settled until yesterday, when a compromise was effected, the injured man receiving \$400.

The Royal Forth lacks but about 200 tons of completing her big cargo, and will leave down early next week. The two latest arrivals, the Crown of England and the Adolf, were discharging ballast yesterday. The Fulwood, outward bound, arrived at Astoria last evening.

### FEARS FOR THE MAULE.

into the town, which was found to be nearly deserted, except by the aged and some Spaniards who had hidden in Buffalo Wallows and who came shouting delightedly toward the Americans. The troops camped in the rain during the night and in the morning General Wheaton established his headquarters in a church, quartered his men in houses and sent the captured Filipinos beyond the outposts with orders not to return.

The inhabitants describe all the roads as partially impassable and say they believe Aguinaldo has secreted a yacht in the river Longue, near Subig for use in his flight when he finds his capture is inevitable.

is necessary to success. Students of "Armstrong's Combined Theory and Practice of Bookkeeping" acquire this. They begin by writing up a model set of books prepared to illustrate the science of accounts. Each step in this work is fully explained by the teacher. In disposing of a complicated transaction after that, the student refers to an entry in this model set containing similar conditions, and studies out the application himself—the teacher seeing that the work is done correctly. The student thus develops into a self-reliant thinker. Investigate this new method of teaching. It makes bookkeeping easy. Call, or write.
